

Sinclair Broadcast Group will be airing a smear campaign about Senator John Kerry next week on 62 of its local stations, called "Stolen Honor: Wounds that Never Heal".

This is blatant electioneering and against federal law. I want to register a complaint about this action.

Television stations use the air waves to serve the community, I don't see how nasty politics and breaking the law are serving the public interest. This should not be allowed to continue.

Thank you for your cooperation.

Sincerely,

marcie frishberg
